

HOW DOES POWER TRAK™ WORK?

By extending the fork tubes and changing the angle of the triple clamps, we have reduced the trail which creates "easy steering without oversteering".

We're so confident in our product, that if you are not completely satisfied with the results, we will give you a full and prompt refund.

POWER TRAK HD

- 8° triple clamps provide excellent steering responsiveness
- Triple clamps are CNC machined from 6061-T6 aluminum
- Steering stem is CNC machined from 1045 TG&P solid steel
- New tapered roller bearing for lower triple clamp

WHAT MAKES THE POWER TRAK HD™ UNIQUELY SUPERIOR?

- Dimensions of the lower triple clamp have been significantly increased, providing greater strength than the OEM cast steel lower clamp
- No fork tube replacement necessary. Locations have been optimized for the Daytona trike ride height
- Extended length fork caps increase the load-installed height of the spring to keep the front end from
